

RI60165A1

60V Brushless 1/4" Impact Driver

- Advanced electronic torque and speed control
- Extended run-time and lifespan
- Three fastening modes tailored for diverse applications
- Robust metal gearbox housing for durability
- Integrated LED light for convenient illumination during work

TECHNICAL SPECIFICATIONS

| | |
|---------------------------|---------------------------|
| Voltage | 60V |
| Drive Size | 1/4" Hex Shank |
| Max. Tightening Torque | 100 / 180 / 270 Nm |
| No Load Speed | 1,200 / 1,900 / 3,000 RPM |
| Impacts per Minute | 0 - 3,000 IPM |
| Tool Weight (w/o battery) | 1.1 kg |

TECHNOLOGIES

Electronic Torque Control uses our advanced tightening technology to automatically shut off when the correct torque has been achieved. Different models will have alternative different stages to customize your workflow to optimize to the correct workload.

Our Patented all-in-one motor integrates multiple components into a single unit, reducing size and complexity while improving efficiency and reliability

DC motors have traditionally been driven by carbon brushes to power the motor. Over time these wear out and need replacing. All our motors are brushless meaning that the motor is controlled electronically without the need for carbon brushes ensuring your tool is maintenance-free.

TOOL FEATURES

The variable speed dial for this power tool offers precise control over its speed, allowing users to adjust for different materials and tasks with ease.

This tool features a hex impact driver, perfect for driving screws and bolts with hexagonal heads.

Illuminate your workspace with the built-in LED light on this power tool, ensuring visibility in low-light conditions for enhanced work safety.

The auto shut-off function automatically shuts down the tool to prevent over-tightening and enhance safety during operation.
