

RW1210-2

12V 1/4" Ratchet Wrench

- Ideal for working in confined spaces
- Convenient forward/reverse lever
- Robust metal gearbox housing for durability
- Utilises brushless technology to vastly increase the longevity of the tool
- Variable speed trigger offers complete control during use

TECHNICAL SPECIFICATIONS

Voltage	12V
Drive	1/4" Square
Max. Tightening Torque	60 Nm
Max. Tightening Torque By Hand	60 Nm
No Load Speed	0 - 240 RPM
Weight (w/o battery)	1.18 kg

TECHNOLOGIES

Our Patented all-in-one motor integrates multiple components into a single unit, reducing size and complexity while improving efficiency and reliability

DC motors have traditionally been driven by carbon brushes to power the motor. Over time these wear out and need replacing. All our motors are brushless meaning that the motor is controlled electronically without the need for carbon brushes ensuring your tool is maintenance-free.

TOOL FEATURES

This power tool is limited to a specific hand-tightening torque value. Exceeding this value may damage the tool.

Effortlessly reach tight and difficult-to-reach spaces with the angled socket feature

Illuminate your workspace with the built-in LED light on this power tool, ensuring visibility in low-light conditions for enhanced work safety.

The compact design philosophy to prioritise ensures easy handling and maneuverability in tight spaces, without compromising on performance or power.
