

## RI12184

### 12V Stubby Impact Wrench

- Industry-leading 540 Nm of breakaway reverse torque
- Brushless motor ensuring consistent high performance
- Auto shut-off prevents over-fastening and damage
- Breakaway auto shut-off cuts the tool off automatically when unfastening
- Compact, stubby design at only 132mm in length for accessing tighter workspaces

### TECHNICAL SPECIFICATIONS

|                        |                         |
|------------------------|-------------------------|
| Voltage                | 12V                     |
| Drive                  | 1/2" Square             |
| Max. Tightening Torque | 338 Nm                  |
| Max. Reverse Torque    | 540 Nm                  |
| Torque Control 3-Mode  | 85 Nm / 155 Nm / 240 Nm |
| No Load Speed          | 0 - 2,800 RPM           |
| Impacts per Minute     | 0 - 3,200 IPM           |
| Weight (w/o battery)   | 1.05 kg                 |

### TECHNOLOGIES

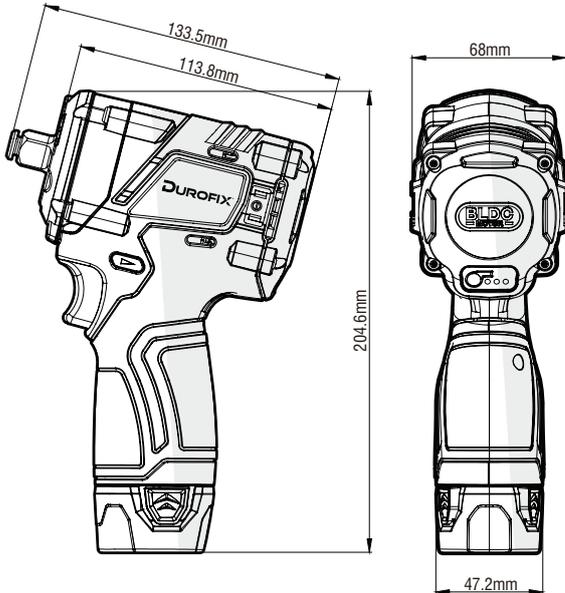

Our Patented all-in-one motor integrates multiple components into a single unit, reducing size and complexity while improving efficiency and reliability

DC motors have traditionally been driven by carbon brushes to power the motor. Over time these wear out and need replacing. All our motors are brushless meaning that the motor is controlled electronically without the need for carbon brushes ensuring your tool is maintenance-free.

## DIMENSIONAL DRAWING

## TOOL FEATURES

COMPACT DESIGN

The compact design philosophy to prioritise ensures easy handling and maneuverability in tight spaces, without compromising on performance or power.

IMPACT MECHANISM

An impact wrench uses a hammer and anvil to generate torque. The hammer's rapid, powerful blows tighten or untighten, reducing the operator's torque reaction.

LIGHT WEIGHT

Experience effortless manoeuvrability and reduced fatigue with this lightweight design, ideal for extended use on various projects.

LED LIGHT

Illuminate your workspace with the built-in LED light on this power tool, ensuring visibility in low-light conditions for enhanced work safety.

AUTO SHUT-OFF

The auto shut-off function automatically shuts down the tool to prevent over-tightening and enhance safety during operation.
