

DUROFIX™

Manufacturers of Precision & Power

DISCOVER THE UNBEATABLE BENEFITS OF DUROFIX

The Ultimate Combination of Precision and Power

HISTORICALLY THE PROFESSIONALS CHOICE Durofix Auto & Equipment Tools

With over 40 years of continuous development in power tool manufacturing, Durofix has emerged as a leading global manufacturer of portable power tools. Our extensive product line caters to construction, woodworking, automotive, and industrial professionals, as well as high-end hobbyists.

As a part of the Mobiletron Group, a renowned global electronics company, we leverage advanced lithium-oil battery power management and brushless motor technologies to produce dynamic precision assembly and heavy-duty 60v power tools.

Our unwavering commitment to developing innovative and dependable products is matched by our dedication to delivering exceptional worldwide services across the Americas, Europe, and the Asia-Pacific regions.

DUROFIX™

WE ARE BIG ENOUGH TO DELIVER, *SPECIALISED ENOUGH TO CARE* DEDICATED SERVICE

At Durofix **we're the manufacturers**, so Your expertise and opinions matter, we listen to all feedback to make the next-generation tool even better with our continuous tool development programme. Full control of the design and manufacturing processes results in a **streamlined supply chain** with direct access to decision-makers, for quicker lead times and optimise profit. Make bespoke amendments for specific requirements for a job. We understand that your tools are an investment and that's why we offer a range of support and service options to help you protect them. From in-house repairs and maintenance to extended warranties and loyalty rewards, we have everything you need to keep your tools in top condition.

OUR MANUFACTURING

Manufacturing private labels for top leading brands for over 40 years. ISO 9001, ISO 14001, 45001, and IATF 16949 accreditations mean that we are a Tier 1 Automotive supplier for OEM. Get top-of-line product middle road prices, why pay more for different colours of housing? Our company has been manufacturing private-label products for internationally recognized brands for more than 40 years, making us a reliable choice for high-quality products at competitive prices. You can trust us to provide premium products without the premium price tag.

IN-HOUSE SERVICE LAB

If you're in need of reliable and efficient repair services for your Durofix Tools, look no further than our extensive in-house service laboratory that operates 24/7 to provide you with a quick and convenient solution. With our expert technicians and cutting-edge equipment, we're equipped to handle any repair job, big or small. Our Durofix Tool repair facility, where most repairs can be completed in just 7-10 business days.

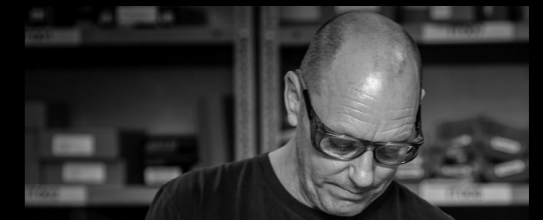

IN-HOUSE MARKETING & DESIGN TEAM

In-house marketing & design team stand ready and specialises in creating modern and fresh campaigns. We can provide you with bespoke marketing graphics, brochures, and product photography to facilitate free mutually beneficial cross-promotions. Our team can work quickly and efficiently to ensure a fast turnaround. Graphic design / Videography as well as app integrations & online presence.

PARTNERSHIP PROGRAMME

We appreciate our loyal partners who have maintained a successful long-term relationship with us which is why we have launched our partnership program where they can receive marketing support and for volume achieved a generous reward programme.

EXTREME POWER FOR YOUR TOUGHEST JOBS

60V SERIES

Extreme Power series tools feature a 60V Li-ion battery and advanced Brushless Motor (BLDC) for maximum power and efficiency. The 60V battery delivers 35% more runtime than a 20V battery with the same power capacity (60V@2.0Ah vs 20V@6.0Ah) while producing less heat and requiring less maintenance. Experience high power, efficiency, and durability with the Extreme Power series.

INCREASED TORQUE

Increased voltage power tools deliver more power which results in superior performance and capability to meet demanding tasks.

Experience the power and torque of the 60V power tool perfect for heavy-duty tasks or demanding applications that require more power.

EXTENDED RUNTIME

Higher voltage tools operate more efficiently if there is a large current draw when required like for jumbo torque as they require less energy to be wasted on heat loss. This means that on the same capacity battery 60V can operate longer runtimes than a lower voltage tool.

$$\text{Voltage} \times \text{Amp hours} = \text{Capacity (Watt Hours)}$$

This means that a 60V power tool will be able to operate for a longer duration without needing to be recharged, making it more convenient for tasks that require extended use whilst prolonging the battery lifespan as it will use less battery cycles.

GOLDILOCKS VOLTAGE "Just Right Voltage"

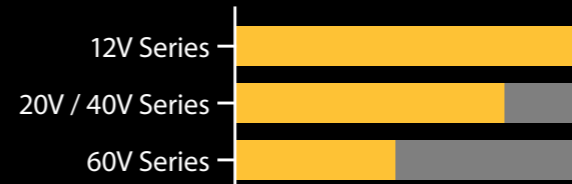

If with ever-increasing voltage, the tool becomes more efficient with less the energy is lost due to the wasted heat transfer so why stop at 60V? **This is the Goldilocks voltage that's just right!**

The choice to have a perfectly balanced tool between weight/cost and torque/battery duration. If we go to a higher voltage, then components have to be strengthened to match the higher voltage thus increasing cost.

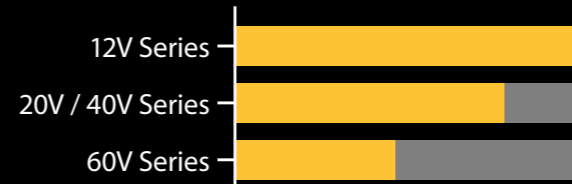

Additionally, as we go higher the weight will also increase so 60V is the Goldilocks voltage to be just right for industrial tool users who demand more power and longer run times.

MATCH THE TOOL TO THE JOB FOR OPTIMAL RESULTS

RUNTIME

- 12V Series** = Price & Weight
- 20V / 40V Series** = All Rounder
- 60V Series** = Torque & Runtime

PROFESSIONAL-GRADE TOOLS FOR PRECISION WORK

PRO-ASSEMBLY

The Pro-Assembly series is designed to precise the assembly process on the work floor. With precision torque setting, auto shut-off features and wireless features & mobile app (depending on models), the Pro-Assembly series is the best choice for professional manufacturing.

MORE POWER SAME CAPACITY*

	DUROFIX OPTION 1	LEADING BRAND 1	LEADING BRAND 2
VOLTAGE	⚡ 60V	⚡ 20V	⚡ 20V
FIXINGS	🔩 89	🔩 59	🔩 64
EFFICIENCY	-	⚙️ 50%	⚙️ 39%

* All batteries tested at the same 120 watt hours capacity. 60V @ 2Ah / 20V @ 6Ah.

INCREASED VALUE

With a rich history of over 40 years in manufacturing private-label products for international well-known brands, our company offers unparalleled quality at competitive prices. Choose us and experience the value of premium products **without the premium price tag.**

INNOVATIVE PRODUCTS

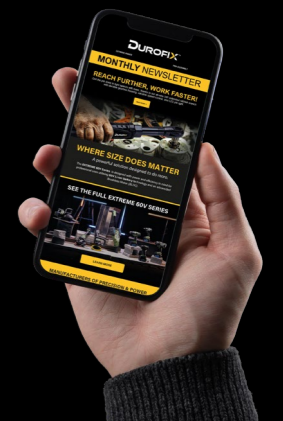

Work with us the manufacturers, who have an extensive number of patents internationally as well as being first to market for several new tools in 2022 & 2023 such as the 2-handed angled nut runner, with over 120NM and EPS with angle detection.

RELIABLE PRODUCTS

You only get invited as a manufacturer to be supply tier 1 manufacturers if you have extremely reliable products which is why we are proud to receive IATF 16949 accreditation so you can rest assured these are quality manufactured parts
