

RI60164-6

60V Brushless 3/4" Jumbo Impact Wrench

- Extended run-time and lifespan
- Robust metal gearbox housing for durability
- Integrated LED light for convenient illumination during work
- Outstanding performance and ergonomic design

TECHNICAL SPECIFICATIONS

Voltage	60V
Drive Size	3/4" Square
Max. Tightening Torque	450 / 600 / 1,450 Nm
Max. Reverse Torque	2,175 Nm
No Load Speed	0 - 900 / 0 - 1,200 / 0-1,600 RPM
Impacts per Minute	0 - 2,400 IPM
Tool Weight (w/o battery)	2.94 kg

NOISE/VIBRATION INFORMATION

Noise Value	Sound Pressure Level (L_{pA})	97.4 dB(A)
	Noise Uncertainty (K Factor)	3.0 dB(A)
Vibration Value	Average Vibration Level (A_v)	24.85 m/s ²
	Uncertainty Level (K Factor)	1.5 m/s ²

TECHNOLOGIES

Our Patented all-in-one motor integrates multiple components into a single unit, reducing size and complexity while improving efficiency and reliability

DC motors have traditionally been driven by carbon brushes to power the motor. Over time these wear out and need replacing. All our motors are brushless meaning that the motor is controlled electronically without the need for carbon brushes ensuring your tool is maintenance-free.

TOOL FEATURES

The auto shut-off function automatically shuts down the tool to prevent over-tightening and enhance safety during operation.

An impact wrench uses a hammer and anvil to generate torque. The hammer's rapid, powerful blows tighten or untighten, reducing the operator's torque reaction.

This power tool delivers exceptional torque, tackling heavy-duty tasks with ease and reliability.

Illuminate your workspace with the built-in LED light on this power tool, ensuring visibility in low-light conditions for enhanced work safety.
